Rocker Arm Stopper

Part	Part no.	Code	Price with tax	Price	Qty per car	Part information
Rocker Arm Stopper	13220-RR450	B	13,650	13,000	1	Steel plate, set of intake and exhaust, one each

Features

Prevents rocker arm from becoming detached during misshifts (over-revs) of SR series engines. Installation involves removal of blow-by baffle plate, and tightening with cam cap bolts. After installation, ensure that there is 2mm clearance between stopper tip and rocker arm.

- Can be used with solid metal as well. In this case, adjust shim after installation.
- Cannot be installed on VVL.

Product Note

- For installation on S14 and S15, some simple additional working of the rocker cover and blow-by baffle will be required.
