Reinforced Con-Rod Bolt Set

Part	Part no.	Code	Price with tax	Price	Qty per car	Part information
Reinforced Con-Rod Bolt Set	12109-RRZ30-S	B	25,200	24,000	1	14T SNCM240, fatigue strength +40%; 12-bolt set

Features

Connecting rod bolts designed for use of genuine connecting rods in high-rotation use. Use of SNCM increases fatigue strength by 40% compared to genuine parts (based on fatigue analysis of connecting rod assembly conditions).

- For 7,200 rpm
- Tightening procedure and torque level differs from that of genuine bolts. Please refer to installation manual.
