

# VQ35DE Engine Parts

Parts for Fairlady Z (Z33) and Skyline Coupe (CPV35)

## High Declination VTC Pulley

| Part                        | Part no.    | Code | Price with tax | Price  | Qty per car | Part information                    |
|-----------------------------|-------------|------|----------------|--------|-------------|-------------------------------------|
| High Declination VTC Pulley | 13025-RRZ30 | B    | 42,000         | 40,000 | 2           | Declination 40→55 deg (crank angle) |

### Features

Engines equipped with the VTC function show improved power at high rpm, more stable idling and stable torque in the low- to mid-speed ranges. By changing the 40° standard declination angle to 55°, a greater choice of camshaft setting is made possible.

· When using a camshaft with a large operating angle and large-angle VTC, please make sure that there is sufficient valve recess so that the intake valve does not come in contact with the piston.
