

Weldina Exhaust Manifold

Part	Part no.	Code	Price with tax	Price	Qty per car	Part information
Weldina Exhaust Manifold	14004-RSK20-12	D	147,000	140,000	1	Catalyst-equipped exhaust manifold, front pipe, exhaust manifold gasket

Features

The exhaust manifold branch diameter has been increased and the branches lengthened to provide increased torque at all speed range from low to high. A low-resistance cell has been used in the catalyzer, and used along with the front pipe in the kit, it provides sharper engine response.

Specifications

Materials: stainless steel (metal catalyst)
Branch internal diameter: $\varnothing 38$ ($\varnothing 24$)
Branch length: 240mm (length 171mm)
Weight: 3.54kg (7.54kg)
1-year guarantee (in Japan only)
Figures in parentheses above are for genuine parts.

Application

- March (K12) CR12DE 2WD (from August 2005)
- March 12SR
