Insulator	74967-89F00	—	—	—	1	Genuine Nissan shift lever part
Cover	74966-89F00	—	—	—	1	Genuine Nissan shift lever part

Product Note

- Always use as a set with a NISMO clutch.
- When shifting down, a major load is created on the transmission by the input of torque from the road surface. To ensure long use, be sure to shift down with the proper engine rotation level. An application for permission to make vehicle modifications may be required in some locations for vehicles to be used on public roads.
