New products now available

Nissan Motorsports International Co., Ltd. (Head office at Minami-Oi Shinagawa-ku, Tokyo; President: Shoichi Miyatani, "NISMO") launches new products designed only for racing cars. It goes on sale from July 13.

GT COOLING SYSTEM

CUTS HEAT AND HUMIDITY IN THE BEST HIGH-PERFORMANCE ANTI-HYPERThERMIA HELMET & DRIVER SUIT AVAILABLE

GT COOLING SYSTEM

This is the SUPER GT GT500, 2009 NISSAN GT-R COOLING SYSTEM, the one that has been making waves ever since. Unlike recent cooling suits running on liquid coolants or the more traditional air conditioning systems, the GT cooling system has been shown to effectively prevent heatstroke by substantially lowering temperatures within the helmet and racing suit. The Driver Cooling System product line includes the "GT Air Conditioning System", the "GT Cooling Seat" & the "GT Cooling Helmet Cover".

[GT AIR CONDITIONING SYSTEM]

The basic construction is the same as typical automobile air conditioning systems. It supplies cool air from a condenser-compressor cooling unit.

Price with tax: ¥1,197,000 / On Demand Production

[GT COOLING SEAT]

Beyond providing general air conditioning for the driver, the system targets body hotspots such as the neck, shoulders and feet in order to provide direct air flow to the most heat taxed body parts. A dry carbon Model GT PRO II & a wet carbon GT PRO III model are available. Both can be supplied with or without the NISMO logo.

GT PRO II (With NISMO logo/ Without NISMO logo)

Price with tax: ¥840,000 / On Demand Production

GT PRO III (With NISMO logo/ Without NISMO logo)

Price with tax: ¥294,000 / On Demand Production

GT PRO II with the NISMO logo

GT PRO III with the NISMO logo

[GT COOLING HELMET COVER]

Beyond providing general air conditioning for the driver, the system targets the head in order to provide direct air flow to the most heat taxed body parts.

GT COOLING HELMET COVER

Price with tax: ¥23,100 / On Demand Production

HOSE ADAPTER

Price with tax: ¥ 6,300 / On Demand Production
